*CHS stopped reporting the number of patients under observation on August 3rd, 2020. This metric was based on the number of people in jail-based housing areas with a COVID-19 confirmed or symptomatic designation. With the spread of the coronavirus in the jails currently contained, communicable disease units may include patients other than those who have been diagnosed with or are symptomatic for the virus. As such, this metric is no longer the best proxy to determine the number of infectious COVID cases. To more accurately determine the total number of current known contagious cases in the jail, CHS recommends referring to metrics reported in [CHS's Local Law 59 report](#), noting that this number can be calculated by subtracting metric 3 ("Number of currently incarcerated/detained individuals tested for infection with positive test result and no longer contagious") from metric 2 ("Number of currently incarcerated/detained individuals tested for infection with positive test result").

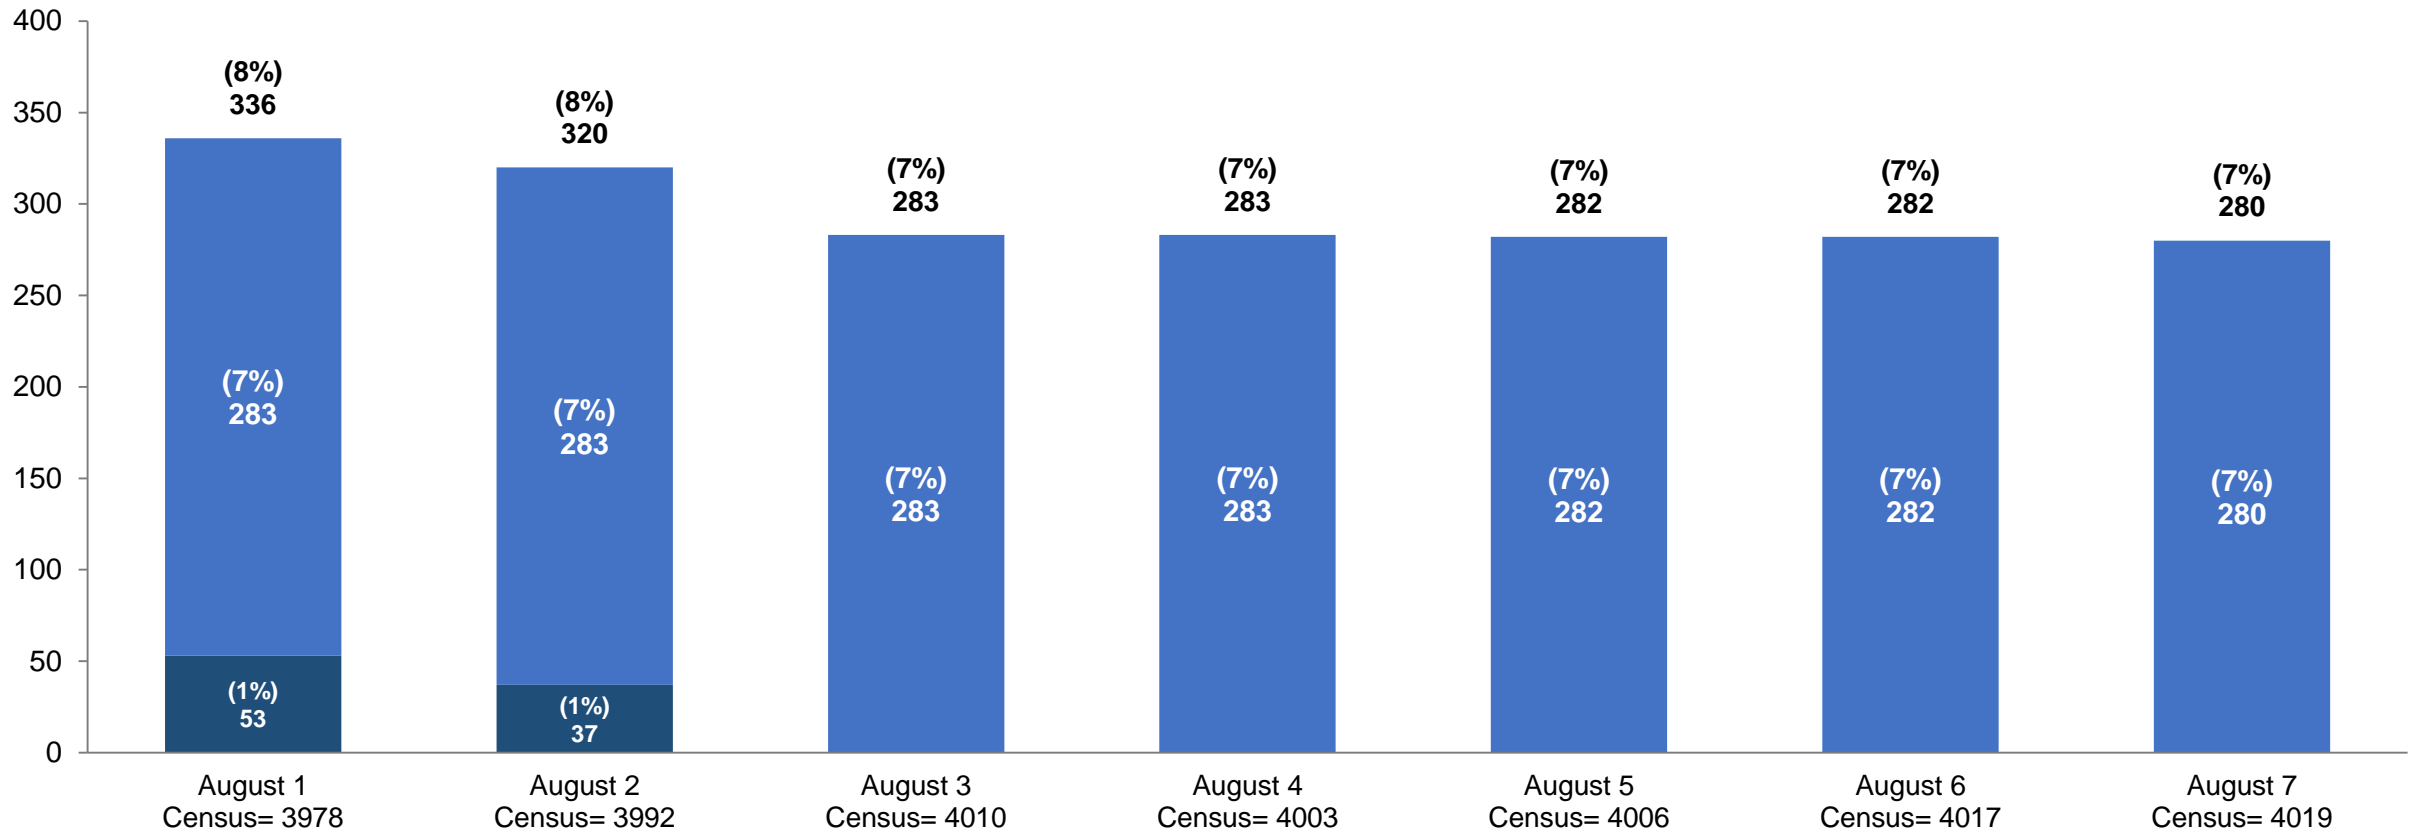

** This metric includes hospitalized patients.

*** The number of CHS patient deaths does not include patients who may have been diagnosed and treated while in custody and died post-release.

II. CHS and DOC Updates to BOC: People in Custody by COVID-19 Status

**Number and Percent of Patients Under Observation or with Confirmed COVID-19
August 1 - August 7, 2020**

■ Patients Under Observation by CHS* ■ Patients with Confirmed COVID-19**

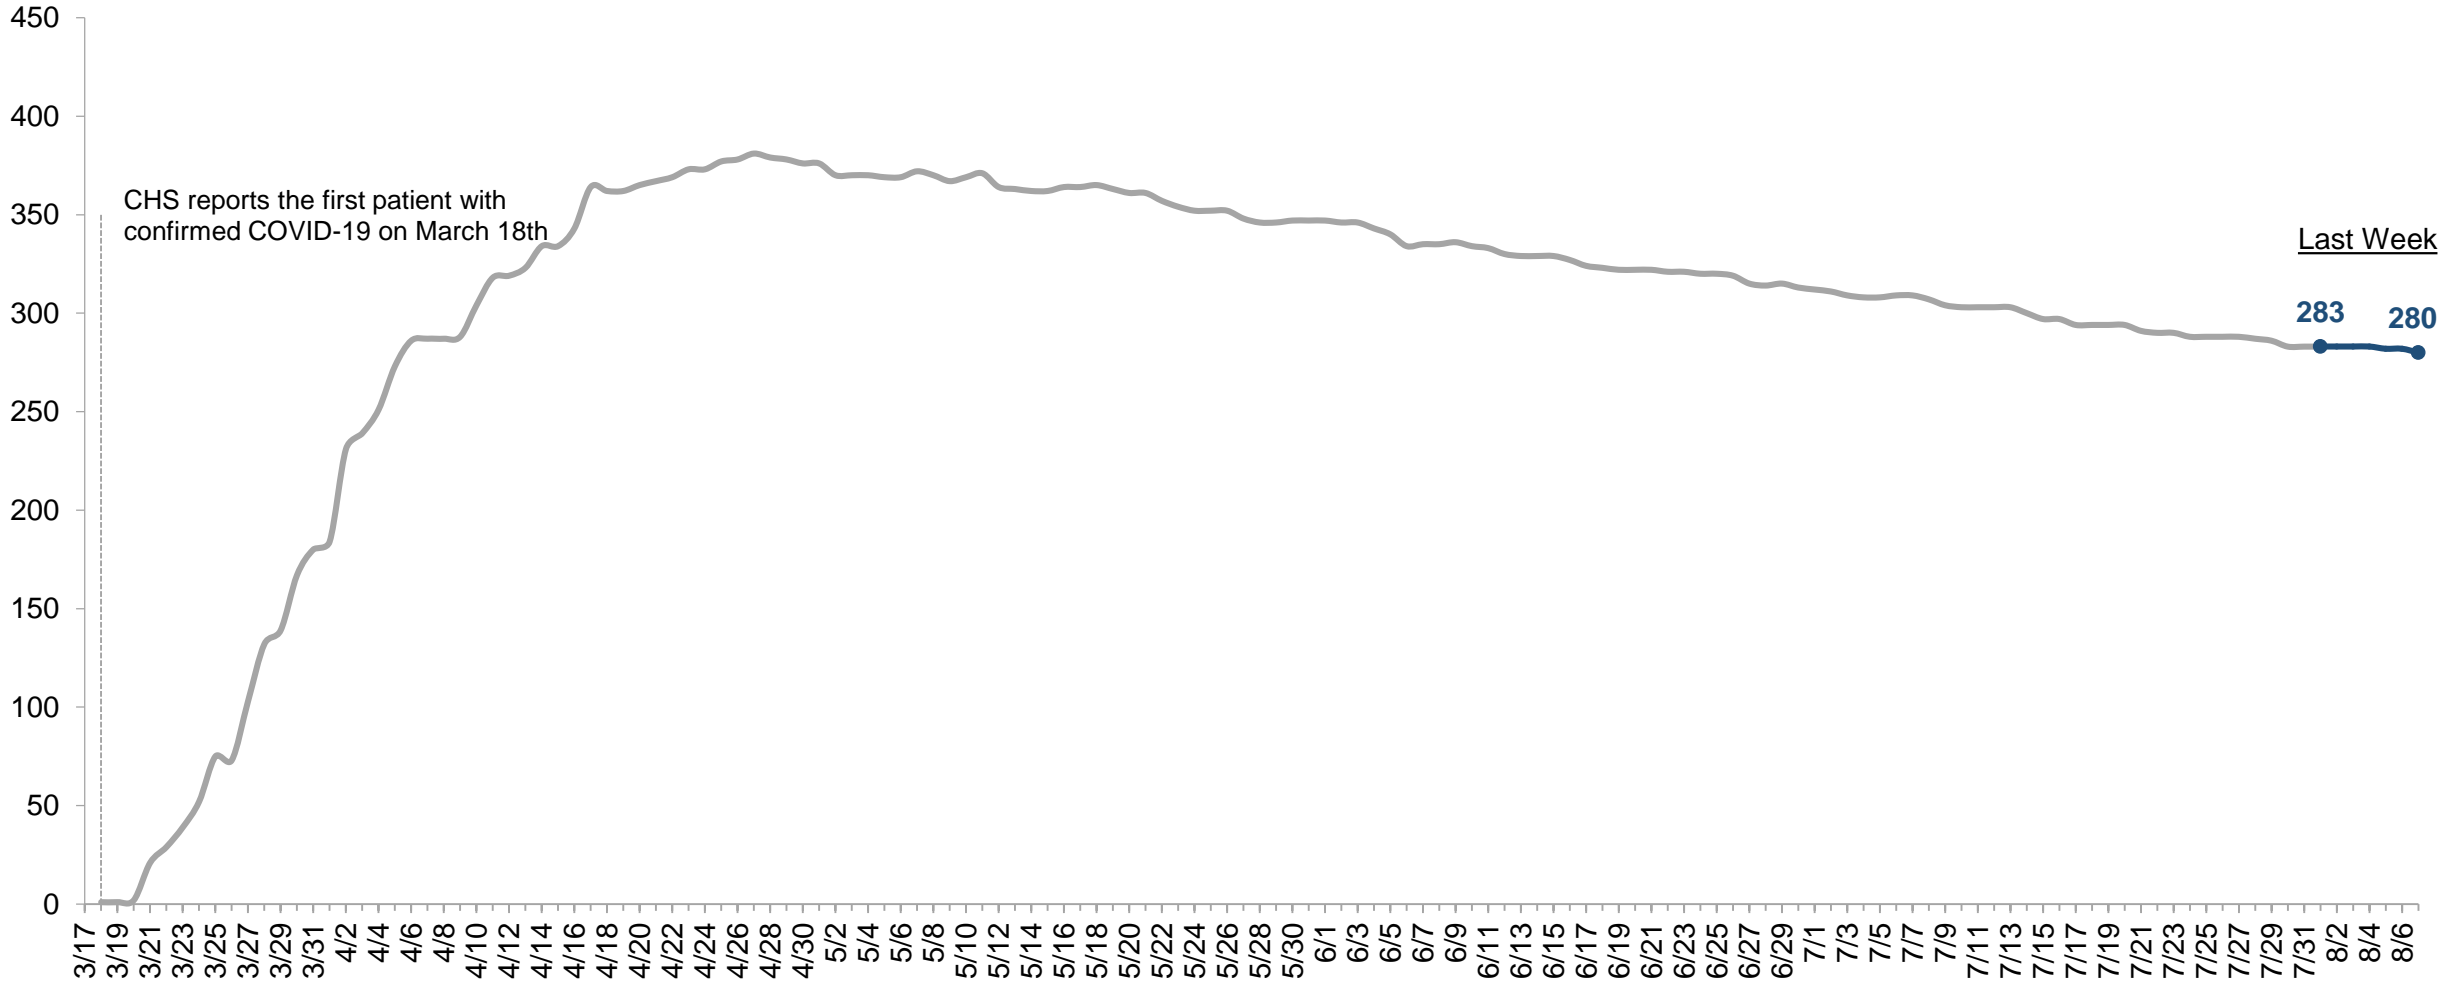

* People under observation by CHS are confirmed COVID-19 patients or symptomatic patients in DOC facilities; this value excludes hospitalized patients. CHS stopped reporting this metric on August 3rd, 2020.

** CHS has not reported the cumulative total number of individuals who were confirmed for COVID-19 while in DOC custody; the numbers above reflect the number of confirmed COVID-19 patients who were currently incarcerated as of each date.

SOURCES: BOC analysis of daily CHS updates to BOC & DOC Inmates in Custody File, automated daily pull from the DOC Inmate Information System (IIS) at 11:00 am

II. CHS and DOC Updates to BOC: Currently Incarcerated Patients with Confirmed COVID-19

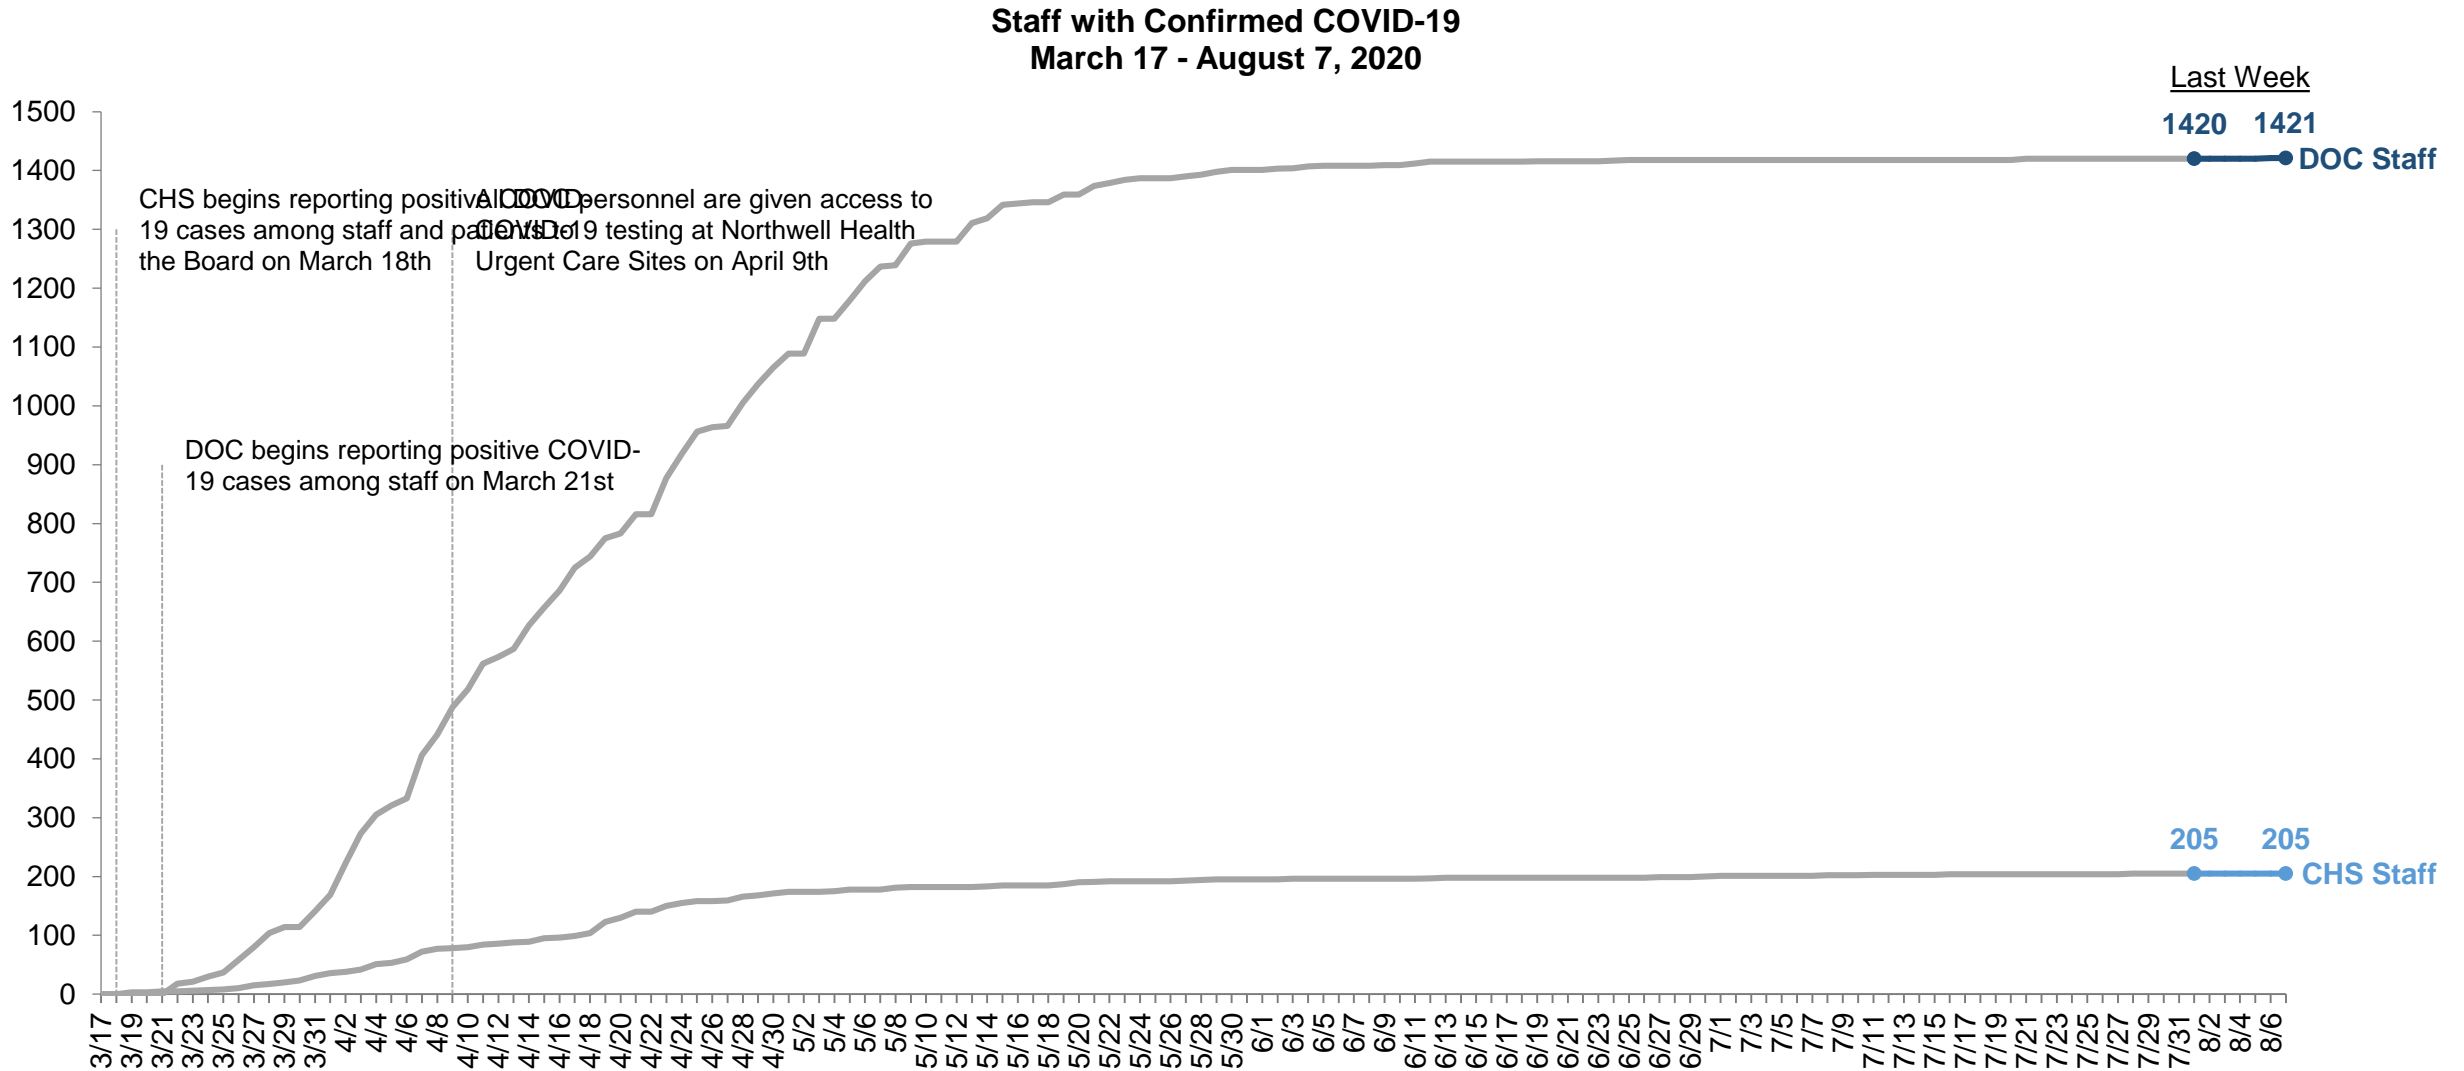

Number of Currently Incarcerated Patients with Confirmed COVID-19
March 17 - August 7, 2020

* CHS has not reported the cumulative total number of individuals who were confirmed for COVID-19 while in DOC custody; the numbers above reflect the number of confirmed COVID-19 patients who were currently incarcerated as of each date.

SOURCE: Daily CHS Updates to BOC

II. CHS and DOC Updates to BOC: Staff with Confirmed COVID-19 (cumulative)

* CHS and DOC report the cumulative total of staff members who have tested positive for COVID-19. CHS does not report the cumulative total of incarcerated people who have tested positive for COVID-19; therefore, it would be inappropriate to compare staff totals to the number of currently incarcerated patients with COVID-19 in slide 8.
