MEMORANDUM

TO: Distribution  
FROM: Barry G. Cox  
RE: Plumbing Signoffs  
DATE: 10 March 1995

---

The Department of Buildings has recently upgraded the BIS system to include a signoff module which has been integrated with the plumbing inspection scheduling module. With this new enhancement, 505 Cards will not be issued for BIS plumbing/sprinkler jobs where inspections and the results of these inspections were scheduled through the plumbing module.

In these cases, applicants can obtain plumbing/sprinkler job signoff information from the borough office public access terminals or from their office terminals if they subscribe to the system. The enclosed computer printouts display the screens where the signoff information is located on BIS.

For Pre-BIS jobs 505 cards will still be issued.
