

**The more of us who get counted in the
2020 CENSUS the more money we get for
health care and hospitals in our communities.**

Census information determines how billions of dollars are spent and allocated in health care, including hospitals, health insurance and emergency services.

RECOVERING FROM COVID-19

NYC health care workers are fighting on the frontlines against the COVID-19 pandemic right now – and they need our help to keep them funded and resourced to keep fighting for us.

HEALTH RESOURCES FOR OUR COMMUNITIES

The census determines funding for critical programs we rely on, such as Medicaid, Medicare, Children’s Health Insurance Program (CHIP) and the Health Centers Program.

By filling out the 2020 Census, we can each do our part to make sure NYC’s health system has the full federal funding we need to keep our communities safe and healthy for years to come.

THE CENSUS IS EASY AND SAFE

The 2020 Census does NOT ask about your immigration or citizenship status.
