

**NEW YORK CITY DEPARTMENT OF HEALTH
AND MENTAL HYGIENE**
Ashwin Vasani, MD, PhD
Commissioner

FOR IMMEDIATE RELEASE
Monday, June 3, 2024

**HEALTH DEPARTMENT TO CONDUCT FIRST AERIAL LARVICIDING OF THE
MOSQUITO SEASON TO MARSHES AND OTHER NONRESIDENTIAL AREAS OF
THE BRONX, BROOKLYN, QUEENS AND STATEN ISLAND**

Aerial Larviciding Reduces the Number of Mosquitoes and Minimizes the Risk of Mosquito-Borne Disease

The Health Department Applies EPA-Approved Pesticide to Mosquito Breeding Grounds When Appropriate Throughout the Season

June 3, 2024 – To reduce mosquito activity and the risk of West Nile virus, the Health Department will conduct its first aerial larviciding treatment of the season to marshes and wetland areas of the Bronx, Brooklyn, Queens and Staten Island on **Friday, June 7 and Monday, June 10 to Tuesday, June 11, 6 a.m. to 7 p.m.**, weather permitting. The helicopter will treat only nonresidential areas. While two days are allotted for the aerial larviciding, the application may be completed in less time. In case of bad weather, application will be delayed until **Wednesday, June 12 to Friday, June 14, 2024** during the same hours.

“As the days get warmer, many of us will be spending more time outdoors,” **said Health Commissioner Dr. Ashwin Vasani.** “To protect yourself from mosquito-borne illnesses, the Health Department will be conducting mosquito control events all summer long to keep New Yorkers safe.”

The Health Department monitors mosquitoes that carry the West Nile virus. To date, no human cases of West Nile virus have been reported this season. During warm weather, mosquitoes can breed in any still water that has been standing for more than five days. In the targeted areas, existing hot and wet weather conditions can cause a rise in mosquito populations. Due to size and limited accessibility, these areas will be treated using a low-flying helicopter.

For the aerial application in marshes and wetland areas of the Bronx, Brooklyn, Queens and Staten Island, the Health Department will use larvicides to kill young mosquitoes before they grow into adults. VectoBac® GS and VectoPrime® FG contain naturally occurring bacteria and will be used for this application. These products have been approved by the U.S. Environmental Protection Agency and the New York State Department of Environmental Conservation and will be used on mosquito breeding grounds throughout the mosquito season.

The most effective way to control mosquitoes is to eliminate any standing water. New Yorkers are encouraged to mosquito-proof their homes and take precautions when spending time outdoors.

Reducing exposure to mosquitoes

- Use an approved insect repellent containing DEET, picaridin, oil of lemon eucalyptus (not for children under three), or products that contain the active ingredient IR3535.
- Make sure windows have screens. Repair or replace screens that have tears or holes.
- Eliminate any standing water from your property and dispose of containers that can collect water. Maintaining standing water is a violation of the New York City Health Code.
- Make sure roof gutters are clean and draining properly.
- Clean and chlorinate swimming pools, outdoor saunas and hot tubs. Keep them empty or covered if not in use. Drain water that collects in pool covers.
- Wear lightweight and light-colored long pants and shirts when in marshy areas as possible.

Report standing water by **calling 311** or visiting nyc.gov/health/wnv. For more information about West Nile virus, **call 311** or visit nyc.gov.

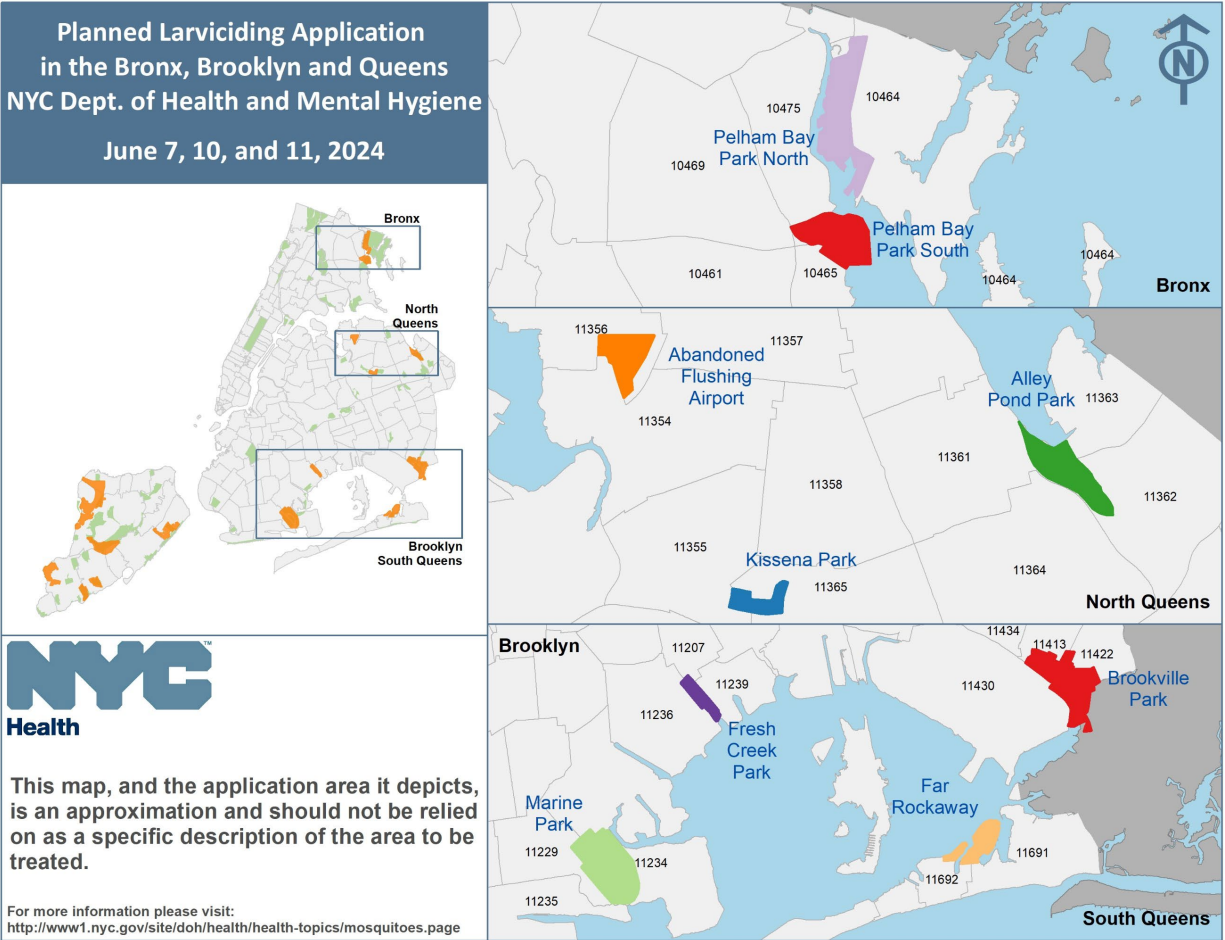

Locations of Aerial Larviciding in Staten Island, Brooklyn, Queens and the Bronx

Borough	Neighborhoods	Marsh/Wetland Areas to be Treated	Boundaries	Zip Code
Staten Island	Arlington, Old Place, Howland Hook	Goethals North	Marsh areas bounded by South Avenue to the east; former North Shore Railroad to the north; Arthur Kill Channel to the west; and Staten Island Expressway to the south	10303
	Bloomfield	Corporate Park North	Marsh areas bound by Graham Avenue and Felton Street to the east; Goethals Road North to the north; Gulf Avenue to the west; and Teleport Drive and Edward Curry Avenue to the south	10311 10314
	Charleston	Fairview Park	Marsh areas bounded by Veterans Road W to the east; Englewood Avenue to the north; Arthur Kill Road to the west; and Bricktown Way, Veterans Road W to the south	10309
	Chelsea, Bloomfield	Saw Mill Marsh North	Marsh areas bounded by Chelsea Road to the east; River Road to the north; Arthur Kill Channel to the west; and Sawmill Creek to the south	10314
	Chelsea, Bloomfield	Saw Mill Marsh	Marsh areas bounded by South Avenue to the east; Edward Curry Avenue, Chelsea Road and River Road to the north; Pralls River to the west; Meredith Avenue, Chelsea Road and South Avenue to the south	10314
	Chelsea, Bloomfield	Corporate Park	Marsh areas bounded by south Avenue to the east and south; Edward Curry Avenue to the	10314

			north; and Chelsea Road and Bloomfield Avenue to the west	
	Chelsea	Chelsea East	Marsh areas bounded by Victory Boulevard to the east; South Avenue and Travis Avenue to the north; Chelsea Road to the west; and Meredith Avenue to the south	10314
	Chelsea , Travis	Chelsea	Marsh areas bounded by Victory Boulevard to the east; Meredith Avenue, Chelsea Road, South Avenue, and Travis Avenue to the north; Arthur Kill Channel to the west; and Wild Avenue and Victory Boulevard to the south	10314
	Fresh Kills	Fresh Kills	Marsh areas bounded by Richmond Avenue to the east; Main Creek to the north; West Shore Expressway to the west; and Arthur Kill Road to the south	10314
	Fresh Kills, Richmond Town	La Tourette	Marsh areas bounded by Richmond Hill Road to the east; Forest Hill Road to the north; Richmond Avenue to the west; and Arthur Kill Road to the south	10306 10308 10314
	Port Mobile	Port Mobile	Marsh and wetland areas bounded by Arthur Kill Road to the east; Arthur Kill Channel to the north and the west; and Outerbidge Crossing to the south	10309
	Wolfe's Pond Park	Wolfes Pond Park	Marsh areas bounded by Luten Avenue, Cornelia Avenue and Chisholm Street to the east; Staten Island Railway to the north; Holton Avenue to the west; and Boardwalk Avenue to the south	10309 10312
	Blue Heron Park	Blue Heron Park	Marsh areas bounded by Barclay Avenue to the east;; Amboy Road to the north; Arbutus Avenue to the west; and Hylan Boulevard to the south	10312
