INTRODUCTION

This 1986 edition of the Project Data Bluebook follows a new format:

Projects are listed alphabetically, instead of chronologically as before. Community Board and Electronic Data Processing (EDP) numbers are listed. Methods of production (Turnkey, Conventional) and type of construction (Rehabilitation, New Construction) are also included. Two indexes have been added: one listing EDP numbers, and the other Project numbers.

We have made these revisions to make the Bluebook even more accessible and informative.
