Indicator name:	CORE customer experience rating of facilities (0–100)
Description:	The CORE (Customers Observing and Reporting Experiences) facility rating (0–100) is an average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

DEPARTMENT OF PARKS & RECREATION

Indicator name:	Recreation centers rated acceptable for cleanliness (%)
Description:	The percent of recreation centers that pass an inspection based on acceptability ratings for litter, graffiti, dirt and the availability of restroom amenities/supplies. A recreation center will receive a rating of unacceptable for cleanliness if, based on the inspection program's criteria, two features are unacceptable or if there is any hazard that poses a serious health/safety risk. Recreation centers included in this rating are facilities requiring membership that are owned and operated by Parks. Every recreation center will be inspected at least twice a year.
Source:	Operations & Management Planning Division
Indicator name:	Recreation centers rated acceptable for overall condition (%)
Description:	The percent of recreation centers that pass an inspection based on acceptability ratings for twelve features in three categories—safety, cleanliness and structural. A recreation center's overall condition will receive a rating of unacceptable if, based on the inspection program's criteria, safety is found to be unacceptable, both the cleanliness and structural categories are rated unacceptable, or if any one condition is judged a serious health/safety hazard. Recreation centers included in this rating are facilities requiring membership that are owned and operated by Parks. Every recreation center will be inspected at least twice a year.

Indicator name:	Annual pruning goal completed (%)
Description:	The percent of the funding-based annual pruning goal that was completed during the reporting period.
Source:	Forestry Division
Indicator name:	Street trees pruned as a percent of pruning eligible trees
Description:	The number of pruning eligible street trees (trees 5 inches and larger in diameter) that were pruned using block pruning contracts divided by the total number of pruning eligible trees (490,417) as determined by the 2005–2006 street tree census.
Source:	Forestry Division
Indicator name:	Total trees removed (street and parks)
Description:	The total number of street and park trees removed annually, including downed trees.
Source:	Forestry Division
Indicator name:	Tree inspections
Description:	The number of tree inspections performed on street and non-forest park trees. Includes all inspections that yield any risk priority category. Prior to Fiscal 2019 this indicator included inspections by DPR staff only.
Source:	Forestry Division
Indicator name:	Immediate priority tree work resolved within 7 days (%)
Description:	The percentage of immediate priority work orders completed in a seven day period following a field inspection. Immediate priority is the most urgent priority category. These work orders meet the following risk criteria: the likelihood of tree failure over a period of seven days is imminent, the chance of impacting a target is high and the consequences if failure and impact occur are severe.
Source:	Forestry Division
Indicator name:	High-priority tree work resolved within 28 days (%)
Description:	The percentage of high-priority work orders completed within a 28 day period following a field inspection. High-priority is the second highest priority category after immediate priority. These work orders meet the following risk criteria: the likelihood of tree failure over the period of one year is probable, the chance of impacting a target is medium and the consequences if failure and impact occur are significant.
Indicator name:	Trees planted
Description:	The total number of street and forestry trees planted by DPR and the number of street trees planted by non-DPR entities. This includes trees planted by NYC Parks' Capital Projects and Operations Divisions; street trees planted by Central Forestry and Horticulture; forest restoration trees planted by the Natural Resources Group; and street trees planted by other City agencies and individuals, community groups, and non-government organizations.

DEPARTMENT OF PARKS & RECREATION

Indicator name:	E-mails routed and responded to in 14 days (%)
Description:	Of the e-mails that were routed, the percentage answered in 14 calendar days or less. Responses should be substantive and adequately address the question/issue raised by the customer. A simple acknowledgement is not considered an adequate response. However, for more complex inquiries that require research and action on the part of the agency, an acknowledgement which includes a description of the next step (either on the agency's behalf, or the customer's), as well as an estimated time frame for completion, is considered acceptable and can be reported as part of the 14 day response. Agencies must internally track the additional time until a customer has a complete and full response.

Source:	Community Outreach
Indicator name:	CORE facility rating
Description:	An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

Indicator name:	CORE facility rating
Description:	An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

TAXI AND LIMOUSINE COMMISSION

Indicator name:	CORE facility rating
Description:	An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

Indicator name: Medicaid recoveries and cost avoidance for fraud waste & abuse (\$000,000)
Description: This indicator shows the cumulative amount recovered from concealment of income and resources by clients, provider audits for waste and abuse, collections from windfalls, personal injury lawsuit settlements and liens on properties and estates, and cost savings from various efforts such as Medicaid prescription drug fraud investigations and clients receiving Medicaid in more than one state. The Medicaid Integrity Investigation Program concluded in January 2014 since most new Medicaid applications began in January 2014 taking place through New York State of Health, the Official Health Plan Marketplace for New York State. As the number of HRA-administered Medicaid recipients has declined, HRA has seen diminished volume through the quarterly Medicaid PARIS match. Therefore, HRA anticipates that going forward the Medicaid cost avoidance values will gradually decline.

Indicator name: Cash assistance recoveries and cost avoidance for fraud, waste and abuse (\$000,000)
Description: This indicator shows, pursuant to Cash Assistance eligibility rules, the cumulative amount recovered from concealment of income and resources by clients, collections from windfalls, lawsuit settlements and liens on properties, repayment of emergency assistance, and federal reimbursement for assistance given while Social Security Disability benefit applications were pending. It also includes cost savings from various efforts such as fraud investigations, case re-budgeting for income changes, and clients receiving Cash Assistance in more than one state. As of Fiscal Year 2013, HRA has changed its method for calculating the Cash Assistance cost avoidance and recoveries indicator by no longer placing a value on reduced budget recommendations from HRA's Bureau of Eligibility Verification (BEV). HRA's updated calculation of cost avoidance more accurately reflects the type of recommendations likely to result in savings.

Indicator name: Fair Hearings requested
Description: The cumulative number of client requests for hearings to contest decisions made by HRA regarding any benefit programs administered by HRA. For Fiscal Years 2019, 2020, and 2021, HRA adjusted its count of fair hearings requested to be consistent with how these requests are determined by New York State. This adjustment resulted in a slight decrease in the reported monthly number of fair hearings requested compared to previously reported data.

HUMAN RESOURCES ADMINISTRATION

Indicator name:	Fair hearings upheld (%)
Description:	Starting in Fiscal 2014, HRA changed its method for calculating Fair Hearings outcomes. The agency win rate includes issues that are affirmed and that are found to be correct at the time they were made and excludes client defaults. Defaults were included as Agency wins in prior periods but are currently excluded because they do not reflect contested issues that are actually heard at hearings. The numerator of this indicator includes all fair hearing issues heard with an outcome of affirmation of the Agency's decision or correct decision when originally made by the Agency and other outcomes. Other outcomes include, for example, the appellant's lack of standing. The denominator includes all fair hearing issues heard with all outcomes including affirmation, correct when made, agency withdrawal, settled, reversal and other outcomes. The rate is calculated based on all outcomes on hearings heard, and it does not include defaults in which the client fails to appear, and the hearing is therefore not actually heard.

CITY UNIVERSITY OF NEW YORK

Indicator name:	Instructional (student) full-time equivalencies (FTEs) enrolled in partially or totally online courses (%)
Description:	Values are computed as the number of student full-time equivalents (FTEs) in CUNY course sections designated as either partially or fully online divided by the total number of CUNY student FTEs. Both undergraduate and graduate courses are included. Note: FTE for each student is based on the number of credits of the courses the student is enrolled in that term (both equated and regular) divided by the number of credits defined as full-time status (15 for undergraduates and 12 for master's students).
Source:	OIRA
Indicator name:	Instructional (student) full-time equivalencies (FTEs) taught by full-time faculty (%)—Senior Colleges
Description:	This indicator is the total number of student (instructional) FTEs in courses taught by full-time faculty divided by the total number of student (instructional) FTEs in all CUNY courses for both the fall and spring semesters of a given academic year at CUNY senior colleges. Note: A full-time employee is counted as one FTE, a part-time non-faculty employee is counted as one-half of an FTE, and each part-time faculty member is counted as one-third of an FTE.
Source:	OIRA
Indicator name:	Instructional (student) full-time equivalencies (FTEs) taught by full-time faculty (%)—Community Colleges

Indicator name:	CORE customer experience rating (0–100)
Description:	The CORE (Customers Observing and Reporting Experiences) customer experience facility rating (0–100) is an average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

Indicator name:	CORE facility rating
Description:	An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

Indicator name:	Bridges rated good or very good (%) (calendar year)
Description:	Federal and State laws mandate that bridge structures be inspected at least once every two years. Engineering consultants from the New York State Department of Transportation perform biennial inspections for all New York City bridge structures except pedestrian bridges and structures under 20 feet in length. Bridge structures not inspected by the State are inspected by DOT's Division of Bridges. Ratings are based on a scale from 1 to 7, and results are grouped in the following categories for each calendar year: Very Good—ratings of 6.1 to 7. Good—ratings of 5 to 6. Fair—ratings of 3.1 to 4.9. Poor—ratings of 1 to 3.

Description: New York State Department of Transportation (NYSDOT) bridge inspection procedures require that “Flags” be issued to report the existence of conditions that pose a clear and present danger, or conditions which, if left unattended for an extended period, would likely become a clear and present danger. A “Flag” is classified as either a Red Flag, Yellow Flag or Safety Flag. Yellow Flag is used to report a potentially hazardous condition which, if left unattended beyond the next scheduled inspection, would likely become a clear and present danger. A Yellow Flag is also used to report the actual or imminent failure of a non-critical primary structural component, where its failure may diminish the reserve capacity or redundancy of the bridge but would not result in structural collapse or a clear and present danger.

Indicator name:	Intersections with accessible pedestrian signals installed
Description:	The number of intersections with accessible pedestrian signals (APS) installed. APS are devices affixed to pedestrian signal poles to assist blind or low vision pedestrians in crossing the street. APS are wired to a pedestrian signal and send audible and vibrotactile indications when pedestrians push a button installed at the crosswalk.
Source:	Division of Traffic Operations—Signal Engineering Unit
Indicator name:	Pedestrian volume index
Description:	An index of pedestrian volumes—the number of pedestrians traveling on the sidewalk at 50 sample locations around the City. Sampling is conducted during one week of May and one week of September at consistent times of day and days of the week. The figure shown is a ratio using the May 2007 count as a baseline. The May 2007 count is assigned a starting value of 100, and the ratio of each new pedestrian count to the baseline count is multiplied by 100 to give the new value. A value of 102 for Spring 2008 means that pedestrian volumes at sample locations increased by approximately two percent over the May 2007 baseline.

Indicator name:	Average days from filing to approval (DOB NOW)
Description:	Averaged count of business days (or fraction thereof) from filing date to first approval date (total time with the agency and the applicant).
Source:	DOB NOW
Indicator name:	Permitted jobs professionally certified (%)
Description:	The percent of jobs (building applications) filed by registered architects and professional engineers who have certified that their submissions are in compliance with the NYC Building Code and applicable zoning regulations. These jobs do not undergo a regular plan examination but are subject to random audit as well as other DOB reviews.
Source:	BIS mainframe database maintained by DOB and DOB NOW: Build
Indicator name:	Permitted jobs professionally certified that were audited (%)
Description:	The percent of professionally certified jobs (building applications) filed that were audited by DOB staff. This includes 1) random (program) and targeted audits of jobs that are accepted and might have already received permits, and 2) zoning audits of new building, major renovations (Alteration type I) and other enlargement applications which are reviewed for compliance with the Zoning Resolution.
Source:	BIS mainframe database maintained by DOB
Indicator name:	Of eligible audited jobs, the percent of audits that resulted in revocation notices (%)
Description:	Excluding zoning reviews, which occur before approval, the percent of professionally certified jobs (building applications) that were audited by DOB staff after approval and/or permit issuance and for which objections pertaining to substantive issues of zoning, life safety and/or accessibility resulted in the issuance of a revocation notice. Note: An applicant must propose corrective measures within 15 calendar days of a revocation notice.

Indicator name:	Priority A (emergency) complaints received
Description:	The number of complaints describing emergency (Priority A) conditions received by DOB. Priority A complaints include all accidents (construction and non-construction related), fumes/smoke from a boiler, unsafe or illegal demolition and vibrating or shaking building, among others.
Source:	BIS mainframe maintained by DOB
Indicator name:	Priority B (nonemergency) complaints received
Description:	The number of complaints describing nonemergency (Priority B) conditions received by DOB. Priority B complaints include the illegal conversion of residential/building space, excessive debris, failure to erect a sidewalk shed, inadequate sidewalk shed, and construction contrary to approved plans/permits, among others.
Source:	BIS mainframe maintained by DOB
Indicator name:	Priority A (emergency) complaints responded to
Description:	The number of complaints describing emergency (Priority A) conditions for which DOB conducted an initial field visit. If the DOB inspector is able to gain access to the complaint site, the field visit results in an inspection. Priority A complaints include all accidents (construction and non-construction related), fumes/smoke from a boiler, unsafe demolition and vibrating/shaking building, among others. Excluded are those complaints that were administratively closed.

Indicator name:	Construction inspections completed
Description:	The number of construction inspections completed citywide.
Source:	BIS mainframe, DOB NOW: Inspections and electronic records maintained by DOB inspection units
Indicator name:	Construction inspections resulting in violations (%)
Description:	The total number of construction inspections performed that resulted in the issuance of at least one violation divided by the total number of construction inspections performed. This includes both complaint-driven and development inspections.
Source:	BIS mainframe and electronic records maintained by DOB inspection units.
Indicator name:	DOB violations issued
Description:	Violations issued by DOB that are a notice that a property is not in compliance with a provision of applicable law and includes an order from the Commissioner to correct the violating condition. This includes administrative violations issued for the non-submittal of required documentation, such as a property owner failing to submit evidence that required inspections were completed.
Source:	BIS mainframe database maintained by DOB
Indicator name:	Office of Administrative Trials and Hearings violations issued
Description:	The total number of violations issued by DOB that fall under the jurisdiction of the Environmental Control Board. Initially reported data for the Preliminary Mayor's Management Report (PMMR) and annual Mayor's Management Report (MMR) is typically incomplete due to data entry backlog and routinely updated in subsequent releases of the MMR.

Source:	AIMS database/Environmental Control Board
Indicator name:	Construction-related incidents
Description:	The total number of events on a construction site (with or without a work permit) that DOB responded to within the reporting period. An event or incident includes accidents and anything other than a scheduled inspection.
Source:	Incident database maintained by the FDC of Development & Tech Affairs Unit
Indicator name:	Construction-related accidents—Total
Description:	An accident is an incident caused by construction activity on a construction site, or on an adjoining site, which results in a fatality or injury requiring medical attention.
Source:	Incident database maintained by the FDC of Development & Tech Affairs Unit
Indicator name:	Construction-related injuries
Description:	The total number of persons injured (fatalities and non-fatalities) as a result of construction activity. This includes injuries occurring at a construction site or related to an incident at a construction site.
Source:	Incident database maintained by the FDC of Development & Tech Affairs Unit
Indicator name:	Construction-related fatalities* (subset of injuries)
Description:	The total number of fatalities that occurred on a construction site, or was related to an incident at a construction site, that was a result of construction activity.
Source:	Incident database maintained by the FDC of Development & Tech Affairs Unit
Indicator name:	Incident inspections resulting in violations (%)
Description:	The percent of incident inspections that resulted in the issuance of a written violation within the reporting period.

Indicator name:	Workplace injuries reported
Description:	All incidents resulting in a workers' compensation or line of duty injury claim regardless of whether or not time was lost.
Source:	Human Capital
Indicator name:	E-mails responded to in 14 days (%)
Description:	The percentage of emails answered in 14 calendar days or less. Responses should be substantive and adequately address the question/issue raised by the customer. A simple acknowledgement is not considered an adequate response. However, for more complex inquiries that require research and action on the part of the agency, an acknowledgement which includes a description of the next step (either on the agency's behalf, or the customer's), as well as an estimated time frame for completion, is considered acceptable and can be reported as part of the 14 day response. Agencies must internally track the additional time until a customer has a complete and full response.

Description:	The percentage of calls answered by a call center representative in 30 seconds or less. Time begins after initial prerecorded message.
Source:	Automatic Call Distribution (ACD) system
Indicator name:	Completed customer requests for interpretation
Description:	The sum of all requests for interpretation using a language other than English fulfilled by the agency via telephone (including Language Line, call centers, offices/reception desks and 311 transfer calls) and via face-to-face interaction with bilingual employees or contracted interpreters.
Source:	Borough and Unit Liaisons
Indicator name:	CORE facility rating
Description:	An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

DEPARTMENT OF DESIGN AND CONSTRUCTION

Indicator name:	Design projects completed (Total)
Description:	The total number of infrastructure and public building design projects for which design was completed during the reporting period and the number in each reporting category.
Source:	DDC's Project Management Information System
Indicator name:	Total design projects completed early/on time (%)
Description:	Of the projects for which design was completed during the reporting period, the percentage that were completed ahead of schedule or no more than 30 days behind the baseline schedule, exclusive of programmatic scope changes and delays outside of DDC control.
Source:	Infrastructure and Public Buildings
Indicator name:	Design projects completed early/on time: Infrastructure (%)

Source:	Public Buildings
Indicator name:	Construction projects completed (Total)
Description:	The total number of construction projects that were substantially completed during the reporting period. A project is considered substantially complete when contract work has been finished. For structure projects a Certificate of Occupancy (temporary or final) is required. For infrastructure projects permanent street restoration must be in place.
Source:	DDC's Project Management Information System
Indicator name:	Total construction projects completed early/on time (%)
Description:	The percentage of all construction projects completed ahead of schedule or no more than 30 days behind the baseline schedule, exclusive of programmatic scope changes and delays outside of DDC control. Additions/adjustments to the design that was agreed on prior to construction start and funding issues caused by such adjustments constitute a programmatic scope change. On larger infrastructure projects (roadway/sewer/water main), delays caused by significant utility interference that are completely out of the agency's control constitute a programmatic scope change.

DEPARTMENT OF CITY PLANNING

Indicator name:	Number of DCP initiated economic development and housing proposals presented to the public
Description:	The number of proposals to promote sustainable mixed-use, mixed-income communities anchored by affordable housing in existing and emerging neighborhoods or that foster growth and development of the City's central and regional business districts, in the form of written reports, certified applications for zoning map or text amendments, website postings, and/or public presentations of recommended actions.
Source:	Planning Coordination
Indicator name:	Number of DCP initiated neighborhood enhancement proposals presented to the public
Description:	The number of proposals to preserve the character of existing neighborhoods, promote sustainability, resiliency and long-term affordability, or improve physical and social infrastructure, in the form of written reports, certified applications for zoning map or text amendments, website postings, and/or public presentations of recommended actions.
Source:	Planning Coordination
Indicator name:	Number of DCP initiated planning information and policy analysis initiatives presented to the public
Description:	The number of projects informing the public of significant trends in land use, housing, zoning, demographics, and procedures and/or policies, in the form of written reports, individual datasets, website postings, and/or public presentations.
Source:	Planning Coordination
Indicator name:	Simple zoning actions certified/referred
Description:	The number of simple zoning actions initiated by private and public applicants, including the Department of City Planning, that were certified as complete and, for those actions subject to ULURP (Uniform Land Use Review Procedure), referred for public review. Simple projects, which can include one or more land use applications and their associated environmental review, include zoning map changes, amendments to the zoning resolution, zoning special permits, authorizations, and certifications and, in general, have no or limited environmental review (all Type II designations).
Source:	Database maintained by DCP's Planning Coordination Division
Indicator name:	Simple zoning actions certified/referred within 12 months (%)
Description:	The percent of simple public and private zoning actions certified as complete or referred for public review within 12 months of project start, normally marked by submission of a Pre-Application Statement (PAS) to the Department.
Source:	Database maintained by DCP's Planning Coordination Division
Indicator name:	Zoning actions with CEQR (EAS) certified/referred
Description:	The number of zoning actions with CEQR (City Environmental Quality Review) requiring an EAS (Environmental Assessment Statement) initiated by private and public applicants, including DCP, that were certified as complete and, for those actions subject to ULURP (Uniform Land Use Review Procedure), referred for public review. Complex projects, which can include one or more land use applications and their associated environmental review, include zoning map changes, amendments to the zoning resolution, zoning special permits, authorizations, and certifications and require more involved environmental review and interagency coordination (Type I or unlisted actions).
Source:	Database maintained by DCP's Planning Coordination Team
Indicator name:	Zoning actions with CEQR (EAS) certified/referred within 15 months (%)
Description:	The percent of public and private zoning actions with CEQR (City Environmental Quality Review) requiring an EAS (Environmental Assessment Statement) certified as complete and/or referred for public review within 15 months of project start, normally marked by submission of a Pre-Application Statement (PAS) to the Department.

Indicator name:	Total number of completed customer requests for interpretation
Description:	The sum of all requests for interpretation using a language other than English fulfilled by the agency via telephone (including Language Line, call centers, offices/reception desks and 311 transfer calls) and via face-to-face interaction with bilingual employees or contracted interpreters.
Source:	Records maintained by DCP's Planning Coordination Division
Indicator name:	CORE facility rating
Description:	An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

Indicator name:	Distinct units affected by emergency repair work completed pursuant to HPD Emergency Repair generating violation
Description:	The Emergency Repair Program completes work in a case where an immediately hazardous violation is issued by an HPD Inspector and the owner fails to correct the condition. The work may be limited to a repair in one apartment or affect multiple apartments in a building (for example, replacement of a heating plant). This count is of units affected by the repair. Includes lead and non-lead work. AEP units are not included in this count.
Source:	Office of Enforcement and Neighborhood Services
Indicator name:	Units in buildings discharged from the Alternative Enforcement Program due to owner compliance
Description:	The Alternative Enforcement Program (AEP) is an enhanced enforcement program which addresses the "most distressed" buildings (as defined by statute). Buildings can be discharged from the program for owner compliance when the owner reduces the violations, complies with an order (if issued), pays outstanding charges and registers the building. This indicator will count the number of units in any buildings which meet the discharge criteria based on owner compliance during the period.
Source:	Office of Enforcement and Neighborhood Services
Indicator name:	Units in buildings discharged from the Underlying Conditions program due to owner compliance
Description:	The Underlying Conditions Program is an enhanced enforcement program which addresses buildings with a significant number of mold and leak violations (as defined in rules). Buildings can be discharged from the program for owner compliance when the owner reduces the violations and complies with an order to have the building assessed for underlying causes of the mold/leaks. This indicator will count the number of units in any buildings which meet the discharge criteria based on owner compliance during the period.

Indicator name: CORE customer experience rating (0-100)
Description: An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2016 data for the overall rating represents a change in methodology. For agencies with multiple service centers, inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the last three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 last year, the service center with the lowest overall score was inspected.

Indicator name:	Civil service exams open for filing by DCAS
Description:	The total number of examinations open for filing by DCAS during the fiscal year excluding NYC Transit Authority exams.
Source:	DCAS Human Capital.
Indicator name:	Median time from exam administration to exam results completion for DCAS-administered exams (days)
Description:	The median number of days elapsed from the date a civil service exam was given to the date exam results are completed (list published or directly established at the request of a hiring agency) for all single-part (i.e., education & experience or multiple choice exams) and multi-part (i.e., qualifying education & experience or qualifying practical exams with competitive multiple choice exams) exams, excluding NYC Transit Authority (NYCTA) exams. NYCTA exams are excluded from this indicator because NYCTA has jurisdiction over the development, administration and scoring of its civil service exams; DCAS is only responsible for processing NYCTA's eligible lists. List publication refers to the point at which results are sent to candidates and published lists are sent to hiring agencies. Appointments cannot be made until a list has been established and certified to hiring agencies. The fiscal year figure is the median number of days for the entire fiscal year.

Indicator name:	Average building cleanliness and condition rating for DCAS-managed space (non-court) (%)
Description:	The average cleanliness and condition rating of DCAS-managed office buildings. The ratings are based on a survey received from DCAS tenants in more than 20 office buildings. Each score is weighted by the square footage of the building the tenant is rating. The overall score tenants gave to their building is worth 20 percent of the total score and all other questions are worth 80 percent.
Source:	DCAS Facilities Management.
Indicator name:	CORE customer experience rating of facilities (0-100)
Description:	An average Customers Observing and Reporting Experiences (CORE) score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g., wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. In Fiscal 2016 inspectors focused on sites that had historically lower scores, specifically sites that received an average overall site score of 85 or lower over the prior three years and sites that received a score of 85 or lower in Fiscal 2015. If all agency service centers scored above 85 in 2015, the service center with the lowest overall score was inspected in 2016. All of the agency service centers were inspected and included in the average score for all other years. Fiscal 2019 data will be reported in Fiscal 2020.

Indicator name:	Average time to complete in-house trade shop work orders (days)
Description:	The winsorized mean time, in days, for DCAS staff to complete work orders for construction repairs, starting from the time the work is assigned a trade (carpentry, plumbing, electrical, locksmith, masonry, plaster, etc.) to completion. We winsorized the data by setting values above the 80th percentile to the 80th percentile. This has the effect of reducing the influence of outliers in the data, without having to remove observations, and providing a more accurate view of the time to complete repairs.

Indicator name:	CORE customer experience rating of facilities (0-100)
Description:	An average score based on the rating of 15 conditions, including physical conditions (e.g., cleanliness, litter, seating) and customer service conditions (e.g. wait time, professionalism), for all agency walk-in facilities inspected, divided by the number of walk-in facilities inspected. Each of the 15 conditions can be rated excellent, good, fair or poor. Ratings of excellent are worth 100 points each, good ratings are worth 67 points, fair ratings are worth 33 points and poor ratings receive no points. Facilities are rated by trained City inspectors. Fiscal 2017-18 data for Customers Observing and Reporting Experiences (CORE) ratings are based on the inspection results of all the agency's service centers. In Fiscal 2016, as an exception, the rating was based on inspections of targeted facilities.

Indicator name:	Letters responded to in 14 days (%)
Description:	The percentage of letters answered in 14 calendar days or less. Responses are substantive and adequately address the question/issue raised by the customer. However, for complex inquiries that require research and additional action on the part of the agency, an acknowledgement which includes a description of the next step, as well as an estimated time frame for completion, is considered acceptable and is also reported as part of the 14 day response. Agencies track the additional time until a customer has a complete and full response.

AGENCY RESOURCES

Indicator name:	Expenditures
Description:	Actual and planned expenditures across all units of appropriation in an agency's expense budget. This does not include capital resources (see Capital commitments, below).
Source:	The Office of Management and Budget. Data prior to Fiscal 2020 is consistent with previous Mayor's Management Reports. Fiscal 2022 expenditures reflect the forecast of Fiscal 2022 final expenditures submitted to the Financial Control Board as of June 2022. Fiscal 2022 and Fiscal 2023 plans reflect the City's Modified and Adopted Budgets for Fiscal 2022 and Fiscal 2023, respectively. NYC Health + Hospitals and the New York City Housing Authority self-report expenditure information.
Indicator name:	Revenues
Description:	Funds collected by agency revenue-generating operations. Does not include State and Federal monies and routine City tax collections.
Source:	The Office of Management and Budget. Data prior to Fiscal 2020 is consistent with previous Mayor's Management Reports. Fiscal 2022 revenues are derived from the City's Financial Management System and include anticipated closing adjustments. Fiscal 2022 and Fiscal 2023 plans reflect the City's Modified and Adopted Budgets for Fiscal 2022 and Fiscal 2023, respectively. NYC Health + Hospitals and the New York City Housing Authority self-report revenue information.
Indicator name:	Personnel
Description:	The total employees, from all funding sources, active on the final day of the reporting period. Among the civilian workforce, non-full-time employees and seasonal employees are counted as full-time equivalents (FTEs), adjusting for the proportion of a full-time salary that they earn. FTEs were not included in this data prior to December 2001. The Fiscal 2023 planned hiring and attrition management headcount reduction will be reflected in a future plan for select agencies.
Source:	The Office of Management and Budget. Fiscal 2022 personnel reflect the number of employees active on June 30, 2022. Fiscal 2022 plans and Fiscal 2023 plans are consistent with the City's Modified and Adopted Budgets for Fiscal 2022 and Fiscal 2023, respectively. The School Construction Authority self-reports personnel plan information.
Indicator name:	Overtime paid
Description:	The additional monetary compensation received by those employees who worked in excess of the 35 or 40 hour work week. Actuals: In the MMR, actual overtime amounts for the most current fiscal year are not yet final, and are estimated from the planned amounts in the City's Financial Management System at the time of budget adoption for the subsequent fiscal year. Final fiscal year actual values for annual overtime paid are reported in the subsequent PMMR (e.g., the Fiscal 2022 PMMR will contain final overtime values for Fiscal 2021) and are provided by OMB. Those final actual values reflect the Comptroller's "Comprehensive Annual Financial Report", the closing audit of the City's fiscal year budget, which is released after the publication of the MMR. Plans: In the MMR, overtime plan information for the most current fiscal year (e.g. Fiscal 2021) reflects the City's prior preliminary financial plan, and the subsequent fiscal year plan reflects the City's adopted budget for the year. In the PMMR, the value of the September MMR plan for the current fiscal year (e.g. Fiscal 2022) is consistent with the adopted budget, and the values for the updated current year plan and subsequent year plan are consistent with the City's most recent preliminary financial plan.
Source:	The Office of Management and Budget (OMB). NYC Health + Hospitals and the New York City Housing Authority self-report overtime information. Annual overtime data from Fiscal 2003 onward is consistent in the MMR since Fiscal 2007, when the City changed to reporting budget-based overtime costs rather than the payroll-based overtime earnings reported in previous MMRs. Overtime plan information was not included in the MMR prior to September 2012. Four-month overtime figures in the PMMR are as of October 31 of each fiscal year, based on the October Financial Information Services Agency report for each year.

AGENCY RESOURCES

Indicator name:	Capital commitments
Description:	The value of contracts for capital projects that the agency is authorized to register and actually registers. Capital projects include construction work and some other categories of procurements, including computer hardware and software, heavy equipment and vehicles. Some construction projects counted within a given agency's commitment total may be managed by other agencies.
Source:	The Office of Management and Budget. Data prior to Fiscal 2020 is consistent with previous Mayor's Management Reports. Fiscal 2023 commitment plan figures are consistent with the Fiscal 2023 Executive Capital Commitment Plan. Fiscal 2022 actual data is as of July 31 and may change upon closure and audit. To view the Fiscal 2023 Adopted Capital Commitment Plan upon its release, please visit www.nyc.gov/omb . The School Construction Authority self-reports capital commitment data in conjunction with OMB.
Indicator name:	Human services contract budget
Description:	Total amount budgeted or actually obligated for human services contracts. This data is shown for eight agencies that together account for over 95 percent of the City total in this category. These agencies are: Department of Health and Mental Hygiene, Department of Education, Human Resources Administration, Administration for Children's Services, Department of Homeless Services, Department for the Aging, Department of Youth and Community Development and Department of Small Business Services.
Source:	The Office of Management and Budget provides actual figures, derived from the Financial Management System. Fiscal 2022 actuals are subject to additional finalization and closing adjustments. Fiscal 2022 and Fiscal 2023 plans are consistent with the Contracts section of the City's Fiscal 2022 and Fiscal 2023 Adopted Budgets, respectively.
