NEW YORK CITY WATERFRONT REVITALIZATION PROGRAM Consistency Assessment Form

Proposed actions that are subject to CEQR, ULURP or other local, state or federal discretionary review procedures, and that are within New York City's Coastal Zone, must be reviewed and assessed for their consistency with the <u>New York City Waterfront Revitalization Program</u> (WRP) which has been approved as part of the State's Coastal Management Program.

This form is intended to assist an applicant in certifying that the proposed activity is consistent with the WRP. It should be completed when the local, state, or federal application is prepared. The completed form and accompanying information will be used by the New York State Department of State, the New York City Department of City Planning, or other city or state agencies in their review of the applicant's certification of consistency.

A. APPLICANT INFORMATION

Name of Applicant: <u>New York City Department of City Planning (DCP)</u>

Name of Applicant Representative: Frank Ruchala, Director for Zoning

Address: 120 Broadway, 31st Floor, New York, NY 10271

Telephone: 212-720-3436 Email: fruchal@planning.nyc.gov

Project site owner (if different than above): Multiple

B. PROPOSED ACTIVITY

If more space is needed, include as an attachment.

I. Brief description of activity

DCP is proposing a zoning text amendment to update the Special Regulations Applying in Flood Hazard Areas (Article VI, Chapter 4) of the New York City Zoning Resolution (ZR), which includes the "Flood Resilience Zoning Text" (the "2013 Flood Text") and "Special Regulations for Neighborhood Recovery" (the "2015 Recovery Text"). These temporary zoning rules were adopted on an emergency basis to remove zoning barriers that were hindering the reconstruction and retrofitting of buildings affected by Hurricane Sandy and to help ensure that new construction there would be more resilient. The 2013 Flood Text provisions are set to expire with the adoption of new and final Federal Emergency Management Agency (FEMA) Flood Insurance Rate Maps (FIRMs), which is anticipated to occur within the next few years. Applicability of the 2015 Recovery Text expired in July 2020. Therefore, DCP is proposing a citywide zoning text amendment, "Zoning for Coastal Flood Resiliency" (the "Proposed Action"), to improve upon and make permanent the relevant provisions of the existing temporary zoning rules of the 2013 Flood Text and 2015 Recovery Text. In addition, the Proposed Action includes special provisions to help facilitate the city's long-term recovery from the COVID-19 pandemic and its associated economic effects by providing more time for existing non-conforming uses to reopen and for builders to undertake certain construction projects. The Proposed Action also includes updates to other sections of the ZR, including the Special Regulations Applying in the Waterfront Area (Article VI, Chapter 2) and provisions within various Special Purpose Districts. The Proposed Action would be applicable citywide. Refer to Chapter 1, "Project Description," for more details.

2. Purpose of activity

The Proposed Action would provide those homeowners, business owners, and practitioners who live and work in the city's floodplain the option to design or otherwise retrofit buildings to: (a) reduce damage from future coastal flood events, (b) be resilient in the long-term by accounting for climate change, and (c) potentially save on long-term flood insurance costs. In addition, it would allow resiliency improvements to be more easily incorporated on waterfront sites at the water's edge and in public spaces, as well as provide zoning regulations to help facilitate the Ccty's long-term recovery from the COVID-19 pandemic and other future disasters. Overall, implementation of the Proposed Action would improve the ability of the city to withstand and recover quickly from future storms or other disaster events.

In the long-term, the Proposed Action, in conjunction with coastal protection strategies and infrastructure improvements that are being pursued by the City and other state and federal agencies, would help to fully realize the vision of a more resilient New York City.

C. PROJECT LOCATION

Borough: All Tax Block/Lot(s): Generic Action

Street Address: N/A

Name of water body (if located on the waterfront): Hudson River, East River, etc.

D. REQUIRED ACTIONS OR APPROVALS

E. LOCATION QUESTIONS

١.	Does the project require a waterfront site?	🖌 Yes	🗌 No
2.	Would the action result in a physical alteration to a waterfront site, including land along the shoreline, land under water or coastal waters?	🖌 Yes	🔲 No
3.	Is the project located on publicly owned land or receiving public assistance?	🔽 Yes	🗌 No
4.	Is the project located within a FEMA 1% annual chance floodplain? (6.2)	🔽 Yes	🗌 No
5.	Is the project located within a FEMA 0.2% annual chance floodplain? (6.2)	🖌 Yes	🗌 No
6.	Is the project located adjacent to or within a special area designation? See <u>Maps – Part III</u> of the NYC WRP. If so, check appropriate boxes below and evaluate policies noted in parentheses as part of WRP Policy Assessment (Section F).	🖌 Yes	🗌 No

- Significant Maritime and Industrial Area (SMIA) (2.1)
- Special Natural Waterfront Area (SNWA) (4.1)
- Priority Maritime Activity Zone (PMAZ) (3.5)
- Recognized Ecological Complex (REC) (4.4)
- West Shore Ecologically Sensitive Maritime and Industrial Area (ESMIA) (2.2, 4.2)

F. WRP POLICY ASSESSMENT

Review the project or action for consistency with the WRP policies. For each policy, check Promote, Hinder or Not Applicable (N/A). For more information about consistency review process and determination, see **Part I** of the <u>NYC Waterfront Revitalization Program</u>. When assessing each policy, review the full policy language, including all sub-policies, contained within **Part II** of the WRP. The relevance of each applicable policy may vary depending upon the project type and where it is located (i.e. if it is located within one of the special area designations).

For those policies checked Promote or Hinder, provide a written statement on a separate page that assesses the effects of the proposed activity on the relevant policies or standards. If the project or action promotes a policy, explain how the action would be consistent with the goals of the policy. If it hinders a policy, consideration should be given toward any practical means of altering or modifying the project to eliminate the hindrance. Policies that would be advanced by the project should be balanced against those that would be hindered by the project. If reasonable modifications to eliminate the hindrance are not possible, consideration should be given as to whether the hindrance is of such a degree as to be substantial, and if so, those adverse effects should be mitigated to the extent practicable.

		Promote	e Timuei	N/A
I	Support and facilitate commercial and residential redevelopment in areas well-suited to such development.			
1.1	Encourage commercial and residential redevelopment in appropriate Coastal Zone areas.	\checkmark		
1.2	Encourage non-industrial development with uses and design features that enliven the waterfront and attract the public.			
1.3	Encourage redevelopment in the Coastal Zone where public facilities and infrastructure are adequate or will be developed.			
1.4	In areas adjacent to SMIAs, ensure new residential development maximizes compatibility with existing adjacent maritime and industrial uses.			
1.5	Integrate consideration of climate change and sea level rise into the planning and design of waterfront residential and commercial development, pursuant to WRP Policy 6.2.			

		Promote Hinder		N/A
2	Support water-dependent and industrial uses in New York City coastal areas that are well-suited to their continued operation.			
2.1	Promote water-dependent and industrial uses in Significant Maritime and Industrial Areas.			\checkmark
2.2	Encourage a compatible relationship between working waterfront uses, upland development and natural resources within the Ecologically Sensitive Maritime and Industrial Area.			\checkmark
2.3	Encourage working waterfront uses at appropriate sites outside the Significant Maritime and Industrial Areas or Ecologically Sensitive Maritime Industrial Area.			\checkmark
2.4	Provide infrastructure improvements necessary to support working waterfront uses.			\checkmark
2.5	Incorporate consideration of climate change and sea level rise into the planning and design of waterfront industrial development and infrastructure, pursuant to WRP Policy 6.2.	\checkmark		
3	Promote use of New York City's waterways for commercial and recreational boating and water-dependent transportation.			\checkmark
3.1.	Support and encourage in-water recreational activities in suitable locations.			\checkmark
3.2	Support and encourage recreational, educational and commercial boating in New York City's maritime centers.			
3.3	Minimize conflicts between recreational boating and commercial ship operations.			\checkmark
3.4	Minimize impact of commercial and recreational boating activities on the aquatic environment and surrounding land and water uses.			\checkmark
3.5	In Priority Marine Activity Zones, support the ongoing maintenance of maritime infrastructure for water-dependent uses.			\checkmark
4	Protect and restore the quality and function of ecological systems within the New York City coastal area.			\checkmark
4.1	Protect and restore the ecological quality and component habitats and resources within the Special Natural Waterfront Areas.			\checkmark
4.2	Protect and restore the ecological quality and component habitats and resources within the Ecologically Sensitive Maritime and Industrial Area.			\checkmark
4.3	Protect designated Significant Coastal Fish and Wildlife Habitats.			\checkmark
4.4	Identify, remediate and restore ecological functions within Recognized Ecological Complexes.			\checkmark
4.5	Protect and restore tidal and freshwater wetlands.			\checkmark
4.6	In addition to wetlands, seek opportunities to create a mosaic of habitats with high ecological value and function that provide environmental and societal benefits. Restoration should strive to incorporate multiple habitat characteristics to achieve the greatest ecological benefit at a single location.			
4.7	Protect vulnerable plant, fish and wildlife species, and rare ecological communities. Design and develop land and water uses to maximize their integration or compatibility with the identified ecological community.			
4.8	Maintain and protect living aquatic resources.			\checkmark

		Promote Hinder		N/A
5	Protect and improve water quality in the New York City coastal area.			
5. I	Manage direct or indirect discharges to waterbodies.			\checkmark
5.2	Protect the quality of New York City's waters by managing activities that generate nonpoint source pollution.			\checkmark
5.3	Protect water quality when excavating or placing fill in navigable waters and in or near marshes, estuaries, tidal marshes, and wetlands.			\checkmark
5.4	Protect the quality and quantity of groundwater, streams, and the sources of water for wetlands.			\checkmark
5.5	Protect and improve water quality through cost-effective grey-infrastructure and in-water ecological strategies.			
6	Minimize loss of life, structures, infrastructure, and natural resources caused by flooding and erosion, and increase resilience to future conditions created by climate change.			
6.1	Minimize losses from flooding and erosion by employing non-structural and structural management measures appropriate to the site, the use of the property to be protected, and the surrounding area.			
6.2	Integrate consideration of the latest New York City projections of climate change and sea level rise (as published in New York City Panel on Climate Change 2015 Report, Chapter 2: Sea Level Rise and Coastal Storms) into the planning and design of projects in the city's Coastal Zone.			
6.3	Direct public funding for flood prevention or erosion control measures to those locations where the investment will yield significant public benefit.			\checkmark
6.4	Protect and preserve non-renewable sources of sand for beach nourishment.			\checkmark
7	Minimize environmental degradation and negative impacts on public health from solid waste, toxic pollutants, hazardous materials, and industrial materials that may pose risks to the environment and public health and safety.			
7.1	Manage solid waste material, hazardous wastes, toxic pollutants, substances hazardous to the environment, and the unenclosed storage of industrial materials to protect public health, control pollution and prevent degradation of coastal ecosystems.			\checkmark
7.2	Prevent and remediate discharge of petroleum products.			\checkmark
7.3	Transport solid waste and hazardous materials and site solid and hazardous waste facilities in a manner that minimizes potential degradation of coastal resources.			
8	Provide public access to, from, and along New York City's coastal waters.	\checkmark		
8.I	Preserve, protect, maintain, and enhance physical, visual and recreational access to the waterfront.	\checkmark		
8.2	Incorporate public access into new public and private development where compatible with proposed land use and coastal location.			\checkmark
8.3	Provide visual access to the waterfront where physically practical.			\checkmark
8.4	Preserve and develop waterfront open space and recreation on publicly owned land at suitable locations.			\checkmark

		Promote	e Hinder	N/A
8.5	Preserve the public interest in and use of lands and waters held in public trust by the State and City.			\checkmark
8.6	Design waterfront public spaces to encourage the waterfront's identity and encourage stewardship.			\checkmark
9	Protect scenic resources that contribute to the visual quality of the New York City coastal area.			
9.1	Protect and improve visual quality associated with New York City's urban context and the historic and working waterfront.			
9.2	Protect and enhance scenic values associated with natural resources.			\checkmark
10	Protect, preserve, and enhance resources significant to the historical, archaeological, architectural, and cultural legacy of the New York City coastal area.			\checkmark
10.1	Retain and preserve historic resources, and enhance resources significant to the coastal culture of New York City.			\checkmark
10.2	Protect and preserve archaeological resources and artifacts.			\checkmark

G. CERTIFICATION

The applicant or agent must certify that the proposed activity is consistent with New York City's approved Local Waterfront Revitalization Program, pursuant to New York State's Coastal Management Program. If this certification cannot be made, the proposed activity shall not be undertaken. If this certification can be made, complete this Section.

"The proposed activity complies with New York State's approved Coastal Management Program as expressed in New York City's approved Local Waterfront Revitalization Program, pursuant to New York State's Coastal Management Program, and will be conducted in a manner consistent with such program."

Applicant/Agent's Name: _ Frank Ruchala, Director for Zoning, NYC DCP

Address: ______Address: ______

Telephone: ______

Email: ______

Applicant/Agent's Signature:

Date: 10/16/20

Submission Requirements

For all actions requiring City Planning Commission approval, materials should be submitted to the Department of City Planning.

For local actions not requiring City Planning Commission review, the applicant or agent shall submit materials to the Lead Agency responsible for environmental review. A copy should also be sent to the Department of City Planning.

For State actions or funding, the Lead Agency responsible for environmental review should transmit its WRP consistency assessment to the Department of City Planning.

For Federal direct actions, funding, or permits applications, including Joint Applicants for Permits, the applicant or agent shall also submit a copy of this completed form along with his/her application to the <u>NYS Department of State</u> <u>Office of Planning and Development</u> and other relevant state and federal agencies. A copy of the application should be provided to the NYC Department of City Planning.

The Department of City Planning is also available for consultation and advisement regarding WRP consistency procedural matters.
